

## Delgado's Chat Room

The Admissions and Enrollment Services Office, under the leadership of Gwen A. Boutte', launched the chat room in December, 2006. The chat room feature allows students to immediately contact a Delgado representative.

Faculty and staff from many of Delgado's academic department participate in the chat room as moderators. At Delgado, we realize the importance of communicating with students and we take great strides to make our communication effortless.

The chat room operation times are posted monthly in the chat module. The chat room is monitored by Delgado representatives at all times. Currently, the chat room is used to answer questions related to Delgado Community College.
